CHAPTER 4: CONCLUSION AND RECOMMENDATION.....	122

ABSTRACT

Previous studies show a positive relationship between the number of Internet users and online shoppers. The use of internet in Kenya has grown tremendously over the years. The introduction of submarine fiber optic cables in 2009 has improved the speeds of internet resulting to lower telecommunications costs and new opportunities across many sectors. Online shopping in Kenya has taken off strongly with the steady increase of internet users over the years. Studies done revealed that among those who shopped online in the Kenyan, college students aged 18 to 22 were the biggest market and a prime source of future growth in online sales. As a result of this we came up with an idea of also digitalizing the gift shopping industry by creating Gift Online where one can order a gift from anywhere within Kenya and have it delivered to him or her or his loved one as fast possible.

ACKNOWLEDGEMENT

The success and final outcome of this project required a lot of guidance and assistance from many people and we are extremely fortunate to have gotten their help towards the completion of this project.

I owe my profound gratitude to our Lecturer Mr. Nyanjui who took keen interest in my project work and guided as till the completion by providing all the information needed for a good system.

I am thankful and fortunate enough to get constant encouragement support and guidance from all the teaching staff of Edu link International College and the students at large.

CHAPTER 1: SYNOPSIS

BACKGROUND INFORMATION

Truly, the Internet today has quickly evolved to be one of the most powerful communication tools worldwide and has also penetrated into our social and economic life. Increasingly, businesses are recognizing the potential of the Internet and it has been noted that the Internet is becoming a hotbed for advertising and commercial activity (Verity, 1994). The Internet was first introduced in Kenya in 1993 on a non-commercial basis. But as years went by the internet has turned out to be close to one of the basic need. With the current ongoing pandemic, it came up with more stringent measures and as a result pushed us to find a better solution to serve all our customers better as well as follow the set regulations. With the Gift online we can now kill two stones with one bird, rather~ two birds with one stone.

Statement of the problem/ORIGINALITY

The results brought up by the need to reach more customers in time and ensuring their orders are all packed, prepared and dispatched in time. Nevertheless follow the current pandemic regulations such as avoiding crowded places and one on one contact.

Objectives

1. To offer quality and authentic gifts in Africa.
2. To come up with a well responsive and friendly website to help different type of people reach us.

LIMITATIONS

Merits

1. The website is mobile friendly, hence it can be used in most of the mobile phones be it with large screens or small screens.
2. One can place his order from anywhere, it does not matter where you are.
3. The website user friendly, anyone can use it.

Demerits

1. Since it is a website application, the website can be attacked by malicious hackers or virus.

CHAPTER 2: ANALYSIS

The objective of the study was to not only come up with a good user friendly gift online website, but also determine the level of awareness and use of online shopping among students, to find out the reasons for adoption or non-adoption of online shopping as well as to establish the profile of users of online shopping. The study was carried out among the University of Nairobi School of business evening students by Jane Wambui Jenga. The data was collected by use of questionnaires. A total of 248 questionnaires were distributed by out of which 204 were returned having being correctly filled. The rate of responses was therefore 82% with the lion share being students who were aware of the online shopping. This then creates a pool of prospects out there ready to be utilized with our premium gifts.

HARDWARE AND SOFTWARE USED

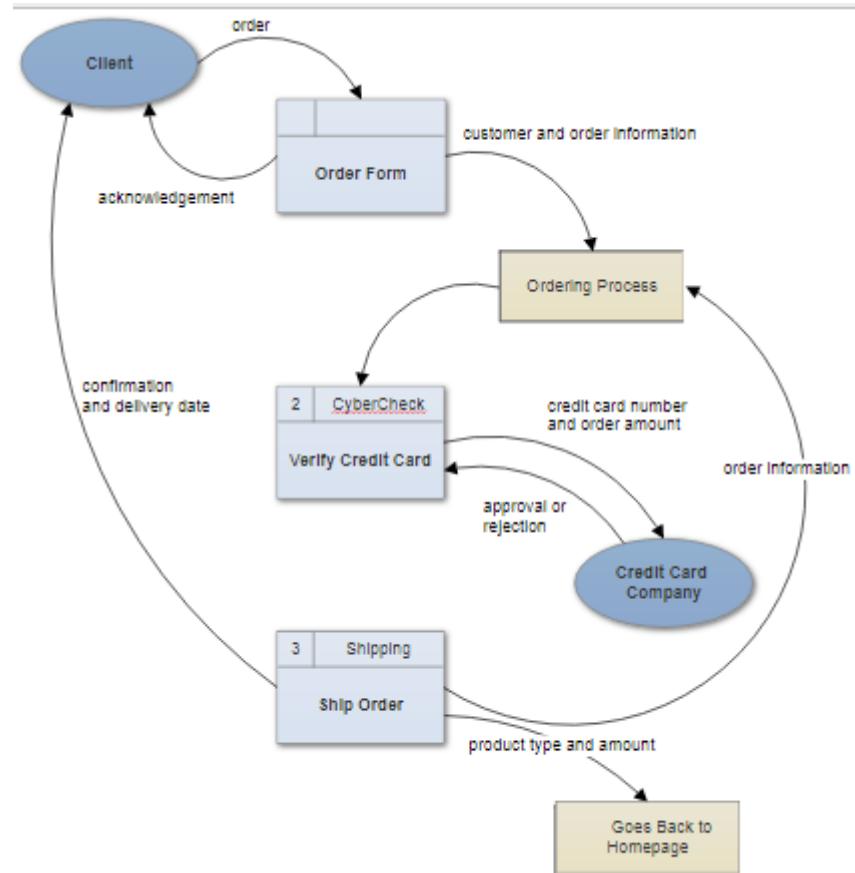

- (i). Full Computer system.
- (ii). Windows 10.
- (iii). Dreamweaver CS6.
- (iv). Notepad ++ v7.3.3
- (v). Microsoft office word 2013.

Note: All softwares above were of 64 bit type

SCREEN SHOTS

Home page

A screenshot of the same website's home page. It features a pink header with a search bar and a "BIRTHDAY GIFTS" button. The main title "COMPANY TEAM" is centered in a large, bold, black font. Below the title is a horizontal line.

A screenshot of a detailed product page. The title "COMPANY TEAM" is at the top, followed by the author's name "Elisha Mukhule". Below this is a grid of eight images representing different gift categories: "Birthday Gifts", "Anniversary Gifts", "Gifts for Women", "Gifts for Men", "Chocolates", "Cakes", "Same Day Delivery", and "Top Brands for him/her". On the left side of the page is a sidebar with a search bar, a "BIRTHDAY GIFTS" button, and lists for "Birthday Gifts for Her", "Birthday Gifts for Him", "Cakes for Birthday", "TOP BRAND GIFTS" (Chanel, Gucci, Louis Vuitton), and "GIFT BY CATEGORY" (Personalized Gifts, Flowers, Cakes, Jewelry).

CHAPTER 4: CONCLUSION AND RECOMMENDATION

CONCLUSION

In conclusion the website created can be further developed and modify to use complex equations like the quadratic equations and many others. The website also can be executed on other leading browsers like Safari, Firefox, and Chrome etc.

RECOMMENDATION

We recommend further research for modification of this website in the future so that we can come up with more advanced website which can be used in almost every other browsers
